

## Geotechnician – 2026 Seasonal Contract

**Banyan Gold Corp.** is a publicly traded (TSXV: BYN; OTCQB: BYAGF), Canadian mineral exploration company focused on advancing its flagship AurMac Gold Project in Yukon, Canada, located near the remote community of Mayo, YT. AurMac is Banyan's primary asset and hosts a substantial mineral resource, with an Indicated Mineral Resource of 2.274 million ounces of gold (112.5 Mt at 0.63 g/t) and an Inferred Mineral Resource of 5.453 million ounces of gold (280.6 Mt at 0.60 g/t), and benefits from excellent infrastructure including highway access, grid power, and telecommunications. In addition to AurMac, Banyan holds the Nitra Gold Project, contiguous with AurMac within the Mayo Mining District, and the Hyland Gold Project near Watson Lake along the Tintina Gold Belt. Banyan's portfolio offers significant exploration potential and is located within established Yukon mining districts, where Banyan advances its work with a focus on responsible development and collaboration with local First Nations.

### **POSITION SUMMARY:**

Reporting to the Senior Geologists and Project Geologists, the **Geotechnician** will be primarily responsible for supporting advanced-stage exploration activities at the AurMac Project in central Yukon. This is a fly-in/fly-out, site-based role on a regular rotational schedule for the duration of the 2026 Exploration Program running from March through November.

The key areas of responsibility for the role are: to assist Logging Geologists in drill core data collection, the collection of samples for assay, ensuring accuracy and maintaining the highest standards of quality in all aspects of work. Additionally, the Geotechnician is responsible for ensuring a smooth and timely workflow in the core shack, lifting and moving core boxes, conducting drill site visits and inspections, as well as various other core shack tasks.

Our ideal candidate will have a dedicated commitment to workplace health and safety and have a demonstrated ability to complete complex work tasks under time pressure. They will also have the ability to follow detailed instructions and anticipate additional direction and tasks delegated by the Logging Geologists. Office and administrative expectancies include proficient data entry and management, and working with various software such as MS Office (Word, Excel), and DHLogger.

**Location:** AurMac Project, near Mayo, YT      **Rotation:** 3 weeks on, 2 weeks off

**Duration of Contract:** March 1, 2026 to November 15, 2026

### **RESPONSIBILITIES:**

- Understand and collect geotechnical data under supervision of the Logging Geologist
- Work closely with the team to complete work in an organized, efficient, and timely manner
- Perform repetitive, detail-oriented tasks for extended periods of time
- Operate with a high degree of flexibility under demanding workloads and time constraints
- Actively contribute to our strong safety culture by ensuring all exploration activities are carried out in full compliance with Banyan's Health and Safety policies and Environmental Sustainability standards.
- Perform other duties as assigned

## QUALIFICATIONS:

- Previous experience in a similar role is preferred, however on the job training will be provided
- Working towards a B.Sc. in geology/geoscience from an accredited university is an asset
- Strong attention to detail with the ability to accurately follow verbal and written instructions
- Willingness to seek clarification and guidance from supervisors when procedures or tasks are unclear
- Demonstrated ability to work with a high degree of flexibility, adapt effectively to a fast-paced and high-demand work environment
- Ability to work independently and with minimal supervision.
- Outstanding communication and time management skills
- Ability to work in challenging physical environments in all weather with the physical ability required for working in mountainous terrain and harsh winter conditions
- Physically capable of safely lifting, carrying, and handling core boxes and other items weighing up to 50 lbs.
- Ability to work and live in a remote camp setting for extended periods
- Legally entitled to work in Canada
- Valid Canadian Class 5 Driver's License
- Valid Level 1 First Aid Certification

**COMPENSATION:** Competitive day rates based on experience level + End of Season Bonus. All travel expenses, as well as room and board on site are fully paid.

**\*Preference will be given to candidates based out of Yukon Territory.**

**HOW TO APPLY:** Please submit your resume with the email subject line “**Geotechnician**” to [careers@banyangold.com](mailto:careers@banyangold.com). Thank you to all applicants for their interest and effort in applying for this position. Only candidates selected for interviews will be contacted.
